## Report of Independent Auditors

Board of Directors  
Danbury Health Systems, Inc.

We have audited the accompanying combined balance sheets of The Danbury Hospital and The Danbury Hospital Development Fund, Inc. (collectively, the Obligated Group) as of September 30, 2009 and 2008, and the related combined statements of operations and changes in net assets, and cash flows for the years then ended. These financial statements are the responsibility of the Obligated Group's management. Our responsibility is to express an opinion on these financial statements based on our audits. We did not audit the financial statements of Danbury Health Insurance Co. Ltd (the Company), a subsidiary of the Hospital, for the year ended September 30, 2009, which statements reflect total assets and revenues constituting 10% and 3%, respectively, of the related combined totals. These statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Company, is based solely on the report of the other auditors.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Obligated Group's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Obligated Group's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits and the report of other auditors provide a reasonable basis for our opinion.

In our opinion, based on our audits and the report of other auditors, the combined financial statements referred to above present fairly, in all material respects, the combined financial position of The Danbury Hospital and The Danbury Hospital Development Fund, Inc. at September 30, 2009 and 2008, and the combined results of their operations and changes in net assets, and their cash flows for the years then ended in conformity with accounting principles generally accepted in the United States.

## Notes to Combined Financial Statements

September 30, 2009

### **1. Significant Accounting Policies**

#### **Organization and Basis of Presentation**

The Danbury Hospital (the Hospital) is a voluntary, nonprofit association incorporated under the General Statutes of the State of Connecticut, and is a wholly-owned subsidiary of Danbury Health Systems, Inc. (DHS). The Board of the Hospital is appointed by DHS.

The consolidated financial statements of the Hospital include the accounts of the Hospital and the Hospital's wholly-owned subsidiary, Danbury Health Systems Insurance Company, Ltd. (DHSIC, Ltd.). All material intercompany transactions have been eliminated.

The Danbury Hospital Development Fund, Inc. (the Development Fund) is a non-stock corporation and a wholly-owned subsidiary of DHS. Its purpose is to raise funds, reinvest and administer these funds, and make distributions to the Hospital and other not-for-profit health care affiliates for purposes, as determined by donors or its Board of Directors in accordance with its bylaws and certificate of incorporation.

#### **Use of Estimates**

The preparation of combined financial statements in conformity with accounting principles generally accepted in the United States (GAAP) requires management to make estimates and assumptions that affect the amounts reported in the financial statements and related footnotes. There is at least a reasonable possibility that certain estimates will change by material amounts in the near term. Actual results could differ from those estimates.

#### **Regulatory Matters**

The Hospital is required to file annual operating information with the State of Connecticut Office of Health Care Access.

#### **Cash and Cash Equivalents**

Cash and cash equivalents include highly liquid investments with maturities of three months or less at date of purchase. Cash and cash equivalents are maintained with domestic financial institutions with deposits that exceed federally insured limits. It is the Obligated Group's policy to monitor the financial strength of these institutions.

# The Danbury Hospital and The Danbury Hospital Development Fund, Inc.

## Notes to Combined Financial Statements (continued)

### **1. Significant Accounting Policies (continued)**

#### **Investments**

The Obligated Group's unrestricted portion of the investment portfolio reported in the accompanying balance sheets is designated as trading, with realized and unrealized gains and losses included in the excess (deficiency) of revenues over expenses.

Investments in equity securities with readily determinable fair values and all investments in debt securities are measured at fair value, based upon quoted market prices, on the balance sheet. Investment income or loss (including realized and unrealized gains and losses on investments, interest and dividends) is included in the excess (deficiency) of revenues over expenses unless the income or loss is restricted by donor or by law.

Alternative investments (nontraditional, not-readily-marketable assets), some of which are structured such that the Obligated Group holds limited partnership interests, are stated at fair value as estimated in an unquoted market. Individual investment holdings within the alternative investments may, in turn, include investments in both nonmarketable and market-traded securities. Valuations of these investments and, therefore, the Obligated Group's holdings, may be determined by the investment manager or general partner, and for "fund of funds" investments are primarily based on financial data supplied by the underlying investee funds. Values may be based on historical cost, appraisals, or other estimates that require varying degrees of judgment. Generally, fair value reflects net contributions to the investee and an ownership share of realized and unrealized investment income and expenses. The investments may indirectly expose the Obligated Group to securities lending, short sales of securities, and trading in futures and forwards contracts, options, swap contracts, and other derivative products. While these financial instruments may contain varying degrees of risk, the Obligated Group's risk with respect to such transactions is limited to its capital balance in each investment. The financial statements of the investees are audited annually by independent auditors.

#### **Temporarily and Permanently Restricted Net Assets**

Temporarily restricted net assets are those whose use by the Obligated Group has been limited by donors to a specific time frame or purpose. Temporarily restricted net assets primarily consist of contributions restricted for certain health care services. Permanently restricted net assets, which are primarily endowment gifts and assets held in trusts by others, have been restricted by donors and are to be maintained in perpetuity.

## Notes to Combined Financial Statements (continued)

### **1. Significant Accounting Policies (continued)**

#### **Contributions**

For financial statement purposes, the Obligated Group distinguishes between contributions of unrestricted assets, temporarily restricted assets and permanently restricted assets.

Contributions for which donors have not stipulated restrictions, as well as contributions for which donors have stipulated restrictions, but which are met within the same reporting period, are reported as unrestricted support. Contributions for which donors have imposed restrictions which limit the use of the donated assets are reported as temporarily restricted net assets if the restrictions are not met in the same reporting period. When such donor imposed restrictions are met in subsequent reporting periods, temporarily restricted net assets are reclassified to unrestricted net assets and reported as net assets released from restrictions. Contributions of assets which donors have stipulated must be maintained in perpetuity, with only the income earned thereon available for current use, are classified as permanently restricted net assets.

#### **Patient Accounts Receivable**

Patient accounts receivable result from the health care services provided by the Obligated Group. Additions to the allowance for uncollectible accounts result from the provision for uncollectible accounts. Accounts written off as uncollectible are deducted from the allowance for uncollectible accounts.

The amount of the allowance for uncollectible accounts is based upon management's assessment of historical and expected net collections, business and economic conditions, trends in Medicare and Medicaid health care coverage and other collection indicators. See Note 2 for additional information relative to third party payor programs.

The Obligated Group's primary concentration of credit risk is patient accounts receivable, which consists of amounts owed by various governmental agencies, insurance companies and private patients. The Obligated Group manages the receivables by regularly reviewing its patient accounts and contracts, and by providing appropriate allowances for uncollectible amounts. Significant concentrations of gross patient accounts receivable include 32% and 14%, and 29% and 12% for Medicare and Medicaid, respectively, for the fiscal years ended September 30, 2009 and 2008, respectively.

## Notes to Combined Financial Statements (continued)

### 1. Significant Accounting Policies (continued)

#### Assets Limited as to Use

Assets limited as to use represent investments with donor restrictions, assets held by trustees under indenture agreements related to financing activities with the State of Connecticut Health and Educational Facilities Authority (CHEFA), and assets held in trusts by others in accordance with donor restrictions. Board designated funds represent unrestricted funds set aside for specific purposes or projects. The portion of amounts required for funding current liabilities is included in current assets.

#### Property, Plant and Equipment

Property, plant and equipment are recorded at cost. The Obligated Group provides for depreciation of property, plant and equipment using the straight-line method in amounts sufficient to depreciate the cost of the assets over their estimated useful lives.

Conditional asset retirement obligations recorded under the provisions of Accounting Standards Codification (ASC) 410-20, *Asset Retirement Obligations*, amounted to \$726,537 as of September 30, 2009 and 2008. These obligations are recorded in other long-term liabilities in the accompanying balance sheet. There are no assets that are legally restricted for purposes of setting asset retirement obligations. During 2009 and 2008, retirement obligations incurred and settled were minimal.

#### Bond Issuance Costs

Discounts and deferred costs related to the issuance of bonds are amortized over the period the obligation is outstanding, using the bonds outstanding method. Accumulated amortization of discounts and deferred costs were \$1,092,389 and \$894,770 at September 30, 2009 and 2008, respectively.

#### Inventories

Inventories are stated at the lower of cost (last in, first out method) or market.

# The Danbury Hospital and The Danbury Hospital Development Fund, Inc.

## Notes to Combined Financial Statements (continued)

### **1. Significant Accounting Policies (continued)**

#### **Nonoperating Gains (Losses)**

Activities, other than in connection with providing health care services, are considered to be nonoperating. Nonoperating gains consist primarily of contributions, income on invested funds, realized and unrealized gains and losses on sales of securities, and the operating expenses of the Development Fund.

#### **Excess (Deficiency) of Revenues over Expenses**

The consolidated statements of operations and changes in net assets include the excess (deficiency) of revenues over expenses as the performance indicator. Changes in unrestricted net assets, which are excluded from the excess (deficiency) of revenues over expenses, consistent with industry practice, include permanent transfers of assets to and from affiliates for other than goods and services and contributions of long-lived assets.

#### **Fair Value of Financial Instruments**

The carrying value of financial instruments classified as current assets and current liabilities as of September 30, 2009 and 2008 approximate fair value based on current market conditions. The fair values of other financial instruments are disclosed in the respective notes and/or in Note 4.

#### **Pension Plan**

The Obligated Group participates in a noncontributory defined benefit pension plan sponsored by DHS covering substantially all of its employees. Contributions are made to the plan in amounts sufficient to meet the Employee Retirement Income Security Act's minimum funding requirements. Net periodic pension expense allocated to the Obligated Group was \$10,041,780 and \$6,325,022 for 2009 and 2008, respectively. The Obligated Group has a prepaid pension on the combined balance sheets that represents additional funding the Obligated Group has made to the defined benefit plan. Prepaid pension was \$32,567,775 and \$48,186,483 at September 30, 2009 and 2008, respectively.

DHS's defined benefit pension plan had estimated projected benefit obligations of \$362,762,642 and \$279,449,297 at September 30, 2009 and 2008, respectively, and the fair value of those plan assets were \$251,961,341 and \$252,705,819 at September 30, 2009 and 2008, respectively. The discount rate was 5.78% and 6.56% for the years ended September 30, 2009 and 2008, respectively.

# The Danbury Hospital and The Danbury Hospital Development Fund, Inc.

## Notes to Combined Financial Statements (continued)

### 1. Significant Accounting Policies (continued)

During 2009, the Obligated Group transferred net assets of \$40,913,129 to DHS relating to the Obligated Group's funding of DHS pension plans.

#### Income Taxes

The Obligated Group is comprised of not-for-profit corporations as described in Section 501(c)(3) of the Internal Revenue Code (the code) and is exempt from federal income taxes on related income pursuant to Section 501(a) of the Code. DHSIC, Inc. is a foreign corporation exempt from US taxation.

The Obligated Group has losses from unrelated business activities of approximately \$33,676,000 which began expiring in 2009. A deferred tax asset for these losses of approximately \$13,470,000 is offset by a corresponding valuation allowance of the same amount.

#### Adoption of New Accounting Standards

In June 2009, the FASB issued ASC 105, *Generally Accepted Accounting Principles* (ASC 105), which establishes the FASB ASC as the sole source of authoritative GAAP. Pursuant to the provisions of ASC 105, the Obligated Group has updated references to GAAP in its consolidated financial statements issued for the year ended September 30, 2009. The adoption of ASC 105 did not have an impact on the Obligated Group's financial positions or results of operations.

On October 1, 2008, the Obligated Group adopted ASC 820-10, *Fair Value Measurements* (ASC 820-10), which defines fair value, establishes a framework for measuring fair value in GAAP and expands disclosures about fair value measurements. The Obligated Group's adoption of ASC 820-10 did not significantly affect its consolidated financial statements (see Note 11).

On October 1, 2008, the Obligated Group adopted ASC 825-10, *The Fair Value Option for Financial Assets and Financial Liabilities* (ASC 825-10) which, among other things, provides an option to elect fair value as an alternative measurement for selected financial assets and liabilities not previously recorded at fair value. As a result of adopting ASC 825-10, the Obligated Group did not elect fair value accounting for any asset or liability not currently required to be measured at fair value. Consequently, the adoption of ASC 825-10 did not have an impact on its consolidated financial statements.

## Notes to Combined Financial Statements (continued)

### **1. Significant Accounting Policies (continued)**

On October 1, 2008, the Obligated Group adopted ASC 958-205: *Net Asset Classification of Funds Subject to an Enacted Version of the Uniform Prudent Management of Institutional Funds Act, and Enhanced Disclosures for All Endowment Funds* (ASC 958-205), which, among other things, provides guidance on the net asset classification of donor-restricted endowment funds for a not-for-profit organization that is subject to an enacted version of the Uniform Prudent Management of Institutional Funds Act of 2006 (UPMIFA) and additional disclosures about an organization's endowment funds. The adoption of ASC 958-205 did not have a material effect on the Obligated Group's consolidated balance sheet at September 30, 2009. See Note 11 for disclosures related to the Obligated Group's endowment funds.

During 2009, the Obligated Group adopted ASC 855-10, *Subsequent Events* (ASC 855-10). ASC 855-10 establishes general standards of accounting and disclosure requirements for subsequent events that occur after the balance sheet date but before the financial statements are issued. In addition, certain events subsequent to the balance sheet date may require recognition in the financial statements as of the balance sheet date under the requirements of ASC 855-10. The Obligated Group adopted the provisions of ASC 855-10 as of September 30, 2009, and evaluated the impact of subsequent events through January 19, 2010, representing the date at which the consolidated financial statements were issued.

### **Reclassifications**

Certain reclassifications have been made to the year ended September 30, 2008 balances previously reported in the consolidated balance sheets and statements of operations and changes in net assets in order to conform with the year ended September 30, 2009 presentation.

Charity care (at charges)	<b>12,266,705</b>	9,657,765
	<b>542,247,474</b>	464,848,504
Net patient service revenue	<b>\$ 460,095,922</b>	\$ 430,505,970

During 2009 and 2008, approximately 34% and 6%, and 32% and 6%, respectively, of net patient service revenue was received under the Medicare and Medicaid program, respectively. Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. Compliance with such laws and regulations can be subject to future government review and interpretation as well as significant regulatory action including fines, penalties and exclusion from the Medicare and Medicaid programs. The Obligated Group believes it is in compliance with all applicable laws and regulations. Changes in the Medicare and Medicaid programs and the reduction of funding levels could have an adverse impact on the Obligated Group.

The Obligated Group has agreements with third-party payors that provide for payments to the Obligated Group at amounts different from its established rates. The difference is accounted for as allowances. Payment arrangements include prospectively determined rates per discharge, reimbursed costs, fee-for-service, discounted charges and per diem payments. Net patient service revenue is affected by the State of Connecticut Disproportionate Share program and is reported at the estimated net realizable amounts due from patients, third-party payors and others for services rendered and includes estimated retroactive revenue adjustments due to future audits, reviews and investigations. Retroactive adjustments are considered in the recognition of revenue on an estimated basis in the period the related services are rendered and such amounts are adjusted in future periods as adjustments become known or as years are no longer subject to such audits, reviews and investigations. During 2009 and 2008, the Obligated Group recorded changes in estimates of approximately \$500,000 and \$1,900,000 million, respectively, related to better than previously estimated third party payor settlements.

**2. Net Patient Service Revenue and Charity Care (continued)**

The Obligated Group has established estimates based on information presently available, of amounts due to or from Medicare, Medicaid and third-party payors for adjustments to current and prior year payment rates, based on industry-wide and Obligated Group-specific data. Such amounts are included in the accompanying combined balance sheets.

It is the policy of the Obligated Group to provide necessary care to all persons seeking treatment without discrimination on the grounds of age, race, creed, national origin or any other grounds unrelated to an individual's need for the service or the availability of the needed service at the Obligated Group. A patient is classified as a charity care patient by reference to established policies of the Obligated Group. Essentially, these policies define charity services as those services for which no payment is anticipated. In assessing a patient's inability to pay, the Obligated Group utilizes the generally recognized federal poverty income guidelines, but also includes certain cases where incurred charges are significant when compared to a responsible party's income. These charges are not included in net patient service revenue for financial reporting purposes.

**3. Investments and Assets Limited as to Use**

The composition of investments and assets limited as to use is set forth in the following table:

### 3. Investments and Assets Limited as to Use (continued)

The Obligated Group is the income beneficiary of funds held in trust by others. The market value of the trusts for The Obligated Group were \$2,800,407 and \$2,856,663 at September 30 2009 and 2008, respectively.

Investment income, net within non-operating gains (losses) as of September 30, 2009 consists of:

Interest and dividend income	\$ 7,895,254
Realized gains and losses	<u>(612,496)</u>
	<u>\$ 7,282,758</u>

### 4. Fair Values of Financial Instruments

As described in Note 1, on October 1, 2008, the Obligated Group adopted the methods of fair value as described in ASC 820-10 to value its financial assets and liabilities, where applicable. As defined in ASC 820-10, fair value is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. To increase consistency and comparability in fair value measurements, ASC 820-10 establishes a fair value hierarchy that prioritizes observable and unobservable inputs used to measure fair value into three broad levels, which are described as follows:

- Level 1: Quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs.
- Level 2: Observable inputs that are based on inputs not quoted in active markets, but corroborated by market data.
- Level 3: Unobservable inputs are used when little or no market data are available. The fair value hierarchy gives the lowest priority to Level 3 inputs.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. In determining fair value, the Obligated Group utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible. In addition, the Obligated Group considers counterparty credit risk in its assessment of fair value.

**4. Fair Values of Financial Instruments (continued)**

Financial assets and liabilities carried at fair value as of September 30, 2009 are classified in the table below in one of the three categories described above:

	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total</b>
<b>Assets</b>				
Cash and cash equivalents	\$ 43,012,579	\$ –	\$ –	\$ 43,012,579
Investments and assets limited as to use:				
Cash and cash equivalents	441,237	–	–	441,237
Money Market Funds	1,756,854	–	–	1,756,854
United States Treasury obligations	36,271,805	–	–	36,271,805
Corporate bonds	22,638,150	–	–	22,638,150
Mutual Funds	114,685,526	74,404,824	–	189,090,350
Trust held by others	–	2,800,407	–	2,800,407
	<u>\$ 218,806,151</u>	<u>\$ 77,205,231</u>	<u>\$ –</u>	<u>\$ 296,011,382</u>

The amounts reported in the table above do not include alternative investments totaling approximately \$11,031,000 that are accounted for under the equity method of accounting.

Fair value for Level 1 is based upon quoted market prices while fair value for Level 2 securities are primarily determined through prices obtained from third party pricing sources as quoted market prices for such securities are not readily available.

**5. Pledges Receivable**

Pledges receivable include the following unconditional promises to give as of September 30, 2009 and 2008:

	<b>September 30</b>	
	<b>2009</b>	<b>2008</b>
Due within one year	\$ 1,441,925	\$ 742,766
Due within one to five years	2,934,620	3,658,672
Due within greater than five years	582,244	945,101

**6. Long-Term Debt and Credit Facility**

Long-term debt consisted of the following:

	<b>September 30</b>	
	<b>2009</b>	<b>2008</b>
Obligated Group revenue bonds financed with CHEFA:		
Series G	\$ 41,555,000	\$ 42,420,000
Series H	41,560,000	41,560,000
Series J	<b>34,020,000</b>	35,580,000
	<b>117,135,000</b>	119,560,000
Less current portion	<b>2,460,000</b>	2,425,000
	<b>\$ 114,675,000</b>	\$ 117,135,000

The following is a summary of the combined aggregate amount of maturities and sinking fund requirements of the aforementioned obligations at September 30, 2009:

2010	\$ 2,460,000
2011	2,545,000
2012	2,635,000
2013	2,730,000
2014	2,835,000
Thereafter	103,930,000
	<b>\$ 117,135,000</b>

The fair value of the bonds, as determined by the Obligated Group's investment advisor, was approximately \$107,325,000 at September 30, 2009.

The Obligated Group paid interest of \$4,659,173 and \$5,413,175 in 2009 and 2008, respectively.

The Series G revenue bonds (Series G Bonds) mature from 2008 through 2029 at an average coupon rate of 5.63%. The proceeds of the Series G Bonds were used to construct a new Cancer Center and reimburse the Obligated Group for equipment purchases made during fiscal year 1999. The scheduled payment of principal and interest on the Series G Bonds is guaranteed by an insurance policy issued by a commercial insurer.

#### **6. Long-Term Debt and Credit Facility (continued)**

The Series H revenue bonds (Series H Bonds) mature from 2030 through 2036 at an average coupon rate of 4.425%. The proceeds of the Series H Bonds were used for the construction, renovation and equipping of an outpatient diagnostic building with approximately 28,000 square feet of medical office space, a 381-space parking garage, a 264-space surface parking lot and to fund capitalized interest. The scheduled payment of principal and interest on the Series H Bonds when due is guaranteed by an insurance policy issued by a commercial insurer.

The Series I revenue bonds (Series I Bonds) were issued as variable rate debt to initially bear interest at an Auction Rate and are scheduled to mature and be called from 2007 to 2036. During fiscal year 2008, the Obligated Group refunded the Series I bonds that were outstanding and was legally discharged from the obligation.

The Series J Revenue bonds (Series J Bonds) were issued as variable rate debt to initially bear interest at a weekly rate (ranging from 0.2% to 7.5%) and are scheduled to mature from 2009 through 2036. The proceeds of Series J Bonds were used to advance refund all of the Series I bonds outstanding. The scheduled payment of principal and interest on the Series J Bonds is guaranteed by an irrevocable, direct-pay letter of credit issued by Wachovia Bank. The Series J Bonds may be converted from the weekly rate to a daily rate, short-term rate, long-term rate, auction rate or fixed rate.

Under the terms of the Series H Bonds, Series I Bonds and Series J Bonds financing arrangements between the Obligated Group and CHEFA, the proceeds of the revenue bonds were loaned to the Hospital. The Hospital is obligated to provide amounts sufficient to pay the principal and interest due on the Series H Bonds, Series I Bonds and Series J Bonds. The Master Indentures and Supplemental Master Indentures provide for the potential establishment and maintenance of a Debt Service Reserve Fund, a pledge of gross receipts, as defined, and parity with the Series G Bonds that remain outstanding. The Master Indentures also establishes a debt service coverage ratio requirement and restricts the incurrence of certain indebtedness by the Obligated Group.

Debt service funds held under bond indenture agreements for Series G Bonds, Series H Bonds and Series J Bonds were \$1,756,854 and \$1,777,234 at September 30, 2009 and 2008, respectively.

### 7. Commitments and Contingencies

Malpractice claims have been asserted against the Obligated Group by various claimants. The claims are in various stages of processing and some may ultimately be brought to trial. In the opinion of counsel, the outcome of these actions will not have a significant effect on the financial position or the results of operations of the Obligated Group.

The Obligated Group is a party to various lawsuits incidental to its business. Management believes that the lawsuits will not have a material adverse effect on the Obligated Group's financial position.

In May 2008, the Obligated Group received a subpoena from the U.S. Department of Health and Human Services, Office of Inspector General, requesting documentation relating to certain claims submitted to Medicare. A second subpoena was received in February 2009 requesting additional information. The Obligated Group has not received any detailed information about the basis of this subpoena and has fully cooperated with the government's request for information.

The Obligated Group has several lease agreements for real estate and equipment. Certain of these leases have renewal options for periods up to five years and escalation clauses. Rent is payable in equal monthly installments. Rent expense was \$3,980,458 and \$3,694,887 for the years ended September 30, 2009 and 2008, respectively.

The future minimum lease payments are as follows:

2010	\$ 3,944,647
2011	1,482,351
2012	1,187,486

Danbury Office of Physician Services, P.C. (DOPS) is a nonprofit professional corporation which provides medical services to the Obligated Group. Charges for physician services provided to the Obligated Group by DOPS were \$31,954,001 and \$30,631,504 for the years ended September 30, 2009 and 2008, respectively. During 2003, the Obligated Group issued a note receivable for \$2,000,000 to DOPS, of which \$1,020,495 and \$1,194,045 was outstanding at September 30, 2009 and 2008, respectively. Other amounts due from DOPS represent cash advances from the Obligated Group.

**9. Professional Liability Self-Insurance**

Effective October 1, 2004, the Obligated Group formed a captive insurance company, Danbury Health Systems Insurance Company, Ltd. (DHSIC, Ltd.), domiciled in the Cayman Islands, to provide alternative professional liability insurance to the Obligated Group and DOPS, as well as providing community doctors with a competitive professional liability insurance option.

Coverage for medical malpractice insurance is on a claims-made basis. The coverage limits are \$5,000,000 per claim and \$25,000,000 in the aggregate. The excess indemnity coverage is \$15,000,000 per claim and \$15,000,000 in the aggregate. The Obligated Group has recorded a liability of \$9,700,000 at September 30, 2009 for incurred-but-not-reported claims, which is included in other long-term liabilities on the accompanying combined balance sheets.

Assets held by DHSIC, Ltd. approximate \$57,682,000 as of September 30, 2009, of which a majority is reflected as investments in the accompanying combined balance sheets. Liabilities recorded by DHSIC, Ltd. approximate \$37,020,000 as of September 30, 2009, of which a majority is reflected as self-insurance liabilities in the accompanying combined balance sheets.

The reserve for losses and loss adjustment expenses for DHSIC, Ltd. are included in estimated self-insurance liabilities in the accompanying combined balance sheets. Activity in the reserve for losses and loss adjustment expenses for the years ended September 30, 2009 and 2008, is summarized as follows:

	<u>2009</u>	<u>2008</u>
Balance at beginning of period	\$ 23,982,982	\$ 25,164,125

ASC 944, *Financial Services – Insurance*, requires the application of deposit accounting for any policies or agreements that do not transfer insurance risk. To the extent that an insurance contract or a reinsurance contract does not, despite its form, provide for indemnification of the insured or the ceding company by the insurer or reinsurer against loss or liability, the premium paid less the amount of the premium to be retained by the insurer or reinsurer shall be accounted for as a deposit by the insurer or ceding company.

Also included in self-insurance liabilities as of September 30, 2009 and 2008 are unearned premiums of \$169,997 and \$161,912, respectively.

The actuary estimated the liability for unpaid losses based on industry data, as well as entity-specific data. Management considers the liability to be adequate as of September 30, 2009 and 2008; however, no assurance can be given that the ultimate settlement of losses may not vary materially from the liability recorded. Future adjustments to the amounts recorded resulting from the continual review process, as well as differences between estimates and ultimate payments, will be reflected in the combined statements of operations and changes in net assets of future years when such adjustments, if any, become known.

**10. Net Assets**

Temporarily restricted net assets of \$28,552,625 and \$11,956,452 as of September 30, 2009 and 2008, respectively, are available to the Obligated Group for health care services. Permanently restricted net assets are \$27,106,095 and \$15,964,548 as of September 30, 2009 and 2008, respectively, and are investments to be held in perpetuity, the income which is expendable to support health care services.

**11. Endowments**

The Development Fund endowment consists of approximately 32 individual funds established for a variety of purposes. The endowment includes both donor-restricted endowment funds and funds designated by the Board of Directors to function as endowments. Net assets associated with endowment funds, including funds designated by the Board of Directors to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

# The Danbury Hospital and The Danbury Hospital Development Fund, Inc.

## Notes to Combined Financial Statements (continued)

### 11. Endowments (continued)

The Leadership of the Development Fund has interpreted UPMIFA as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the Development Fund classifies as permanently net restricted assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time of the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the organization in a manner consistent with the standard of prudence prescribed by UPMIFA. In accordance with UPMIFA, the Development Fund considers the following factors in making a determination to appropriate or accumulate donor-restricted funds:

- (1) The duration and preservation of the fund
- (2) The purposes of the Development Fund and the donor-restricted endowment fund
- (3) General economic conditions
- (4) The possible effect of inflation and deflation
- (5) The expected total return from income and the appreciation of investments
- (6) Other resources of the Development Fund
- (7) The investment policies of the Development Fund

The Development Fund has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain purchasing power of the endowment assets. Endowment assets include those assets of donor-restricted funds that the Development Fund must hold in perpetuity or for a donor-specific period(s) as well as board-designated funds. Under this policy, as approved by the Board of Directors, the endowment assets are invested in a manner that is intended to produce a real return, net of inflation and investment management costs, of at least 5% over the long term. Actual returns in any given year may vary from this amount.

To satisfy its long-term rate-of-return objectives, the Development Fund relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Development Fund targets a diversified asset allocation that places a greater emphasis on equity-based alternative investments to achieve its long-term objective within prudent risk constraints. The spending policy is that all expenditures associated with the endowment are reviewed and approved by the leadership of the Development Fund prior to appropriation for spending each year.

**11. Endowments (continued)**

From time to time, the fair value of assets associated with individual donor-restricted endowments funds may fall below the level fund of the corpus that UPMIFA requires the Development Fund to retain as a fund of perpetual duration. These deficiencies result from unfavorable market fluctuations that occurred shortly after the investment of new permanently restricted contributions and continued appropriation for certain programs that was deemed prudent by the Board of Directors. There was \$290,127 in deficiencies of this nature which are reported in unrestricted net assets as of September 30, 2009.
